DSC - 25% N-Sure®

PRODUCT DESCRIPTION

- 25% slow-release nitrogen from **N-Sure®**.
- An economical solution for fertilizing greens, tees and fairways.
- Contains 1.1% silicate (Si).
- Phosphorous free

PRODUCT BENEFITS

- **N-Sure®** liquid nitrogen fertilizer contains **TRIAZONE™**, a patented, slow-release nitrogen compound.
- **TRIAZONE™** nitrogen results in increased nitrogen absorption by plants to provide uniform growth and consistent colour intensity for 8 to 10 weeks.
- Research shows that silicate strengthens the plant cell walls, which makes the plant less susceptible to various stresses.
- The slow release mechanism of **N-Sure®** minimizes the loss of nitrogen to the environment.
